Day Case

Major Knee Surgery

ACL reconstructions

to Total Knee replacements

Monday 5 October 2020
Hybrid Conference

Virtual or On-site Attendance
De Vere West One, London

This Hybrid Conference which allows both in person and virtual attendance, will include access to the virtual user friendly portal which will provide you with the full conference experience from your workplace or home. Conferences will also run on-site as well (subject to government approval) with full social distancing covid-19 safety measures in place, giving you the flexibility and choice to attend in whichever way you prefer. If venues cannot open the conference will go ahead in a fully virtual format.

The Virtual Portal (accessible to both onsite and virtual delegates) will include Live and pre-recorded sessions as per the onsite programme, supporting abstracts, resources and powerpoint presentations, Interactive Breakout groups, Live Q&A sessions and polls, Virtual networking with fellow delegates and speakers, a virtual exhibition where you can virtually meet sponsors and exhibitors, a secure server with password protected entry exclusively for attendees and CPD accreditation as per the onsite programme.

Day Case Anterior Cruciate Ligament Reconstruction Surgery and Uni-compartment Knee Replacement Surgery has been routine practice for over 10 years in some trusts. Building on this, leading units are now providing Total Hip and Knee Replacement Surgery on a day case basis. It has been proven to be safe, achievable and has been replicated across a number of trusts. With increasing pressure on the NHS, the drive to reduce length of stay and deliver as much activity as possible on a day case basis is a key national priority. Day Case major joint replacement surgery is now routine practice in a number of units across the UK. However, there remains huge variation in day case orthopaedic surgery across the country with some units still struggling to deliver ACL reconstruction surgery as a day case, yet others consistently have rates approaching 100%. Come and learn how they did it, the obstacles they overcame and take the opportunity to transform your orthopaedic services.

National experts from the British Association of Day Surgery and leading Orthopaedic units will share experience including:

- How to develop a high-class day surgery service
- Analgesia for day case arthroplasty
- Use of short acting spinal anaesthesia for major orthopaedic day surgery procedures
- Pathways and protocols for day case arthroplasty
- Pitfalls to avoid and obstacles to overcome – how they did it

This conference will enable you to:

- Network with colleagues who are working to improve day surgery orthopaedic services
- Learn from outstanding practice in day surgery arthroplasty
- Reflect on national developments and learning
- Understand how you can improve your day surgery pathways
- Identify key strategies for implementation of a day surgery joint replacement service
- Ensure you are up to date with the latest national practice
- Self assess and reflect on your own practice

10% card payments discount*
15% Group booking discount**
25% discount for BADS members

09.45 Registration, Tea & Coffee / Online Networking

10.00 AM Chair's Introduction
